Brand New Book ***** Print on Demand *****.Excerpt from The Natural History of British Insects, Vol. 11: Explaining Them in Their Several States, With the Periods of Their Transformations, Their Food, conomy, C, Together With the History of Such Minute Insects as Require Investigation by the Microscope As a general history of the Entomological productions of Great Britain, this Work has been long acknowledged the most copious hitherto submitted to the Public. The first part, comprising no less than ten volumes, having already appeared in monthly numbers, the author does not conceive it in any respect incumbent on him to enlarge on its pretensions to notice. Whatever may be its merits, the author must, in candour, allow they have been amply appreciated by the liberality of that public, who, for the space of ten years, were pleased to sanction it with the bed testimony of their approbation. The publication of this work has been some time discontinued, but the occasion of this delay is sufficiently known. The Author had then fulfilled his first engagements, so far as related to this work, and was unwilling to trespass beyond the limits those engagements prescribed. - He stated, notwithstanding, at the conclusion of the work, that no consideration should permit him to entirely abandon his entomological pursuits: that his attention would be directed to a science in which the past indulgence of the public had induced him to believe he might yet be useful; and that, should a number of new and valuable insects occur, they would be certainly added in a supplement form to improve the former work.
