Prices of the energy products are increasing due to declining reserves and the emerging countries like China and India are fueling a constant growth in world-wide demand. The right energy mix for the utility companies is becoming more and more important as well as the investments in a 'cleaner' energy due to ecological issues are necessary. For a utility company a powerful standing is essential to secure these supply issues for short and longterm supply. This is maybe one reason for the upcoming consolidation in the energy market. E.ON is also trying to play this game. Its strategic and financial goals through the merger with Endesa are to create the world's leading power and gas company and therefore, a stronger presence in...
