### ***Reviews***

*Merely no terms to spell out. We have read through and i also am confident that i will gonna read yet again again in the future. You will not sense monotony at anytime of your own time (that's what catalogs are for about should you question me).*

***(Pasquale Larkin I)***

## SERMONS (3)

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 20 pages. Original publisher: Golden, Colo. : National Renewable Energy Laboratory, 2006 OCLC Number: (OCoLC)173666150 Subject: Photovoltaic cells -- Research. Excerpt: . . . liquid deposit smooth larger area solar cells and to improve the overall power efficiency of these inexpensive devices are now being developed under an NSF STTR Phase I grant. Lifetime Properties of Device Structures Lifetime behavior of all three types of devices ( polymer blends, TiOx layers, and PCBM blends ) was monitored for changes in their IV-curves and quantum efficiency upon exposure to solar radiation. The blended devices were observed to degrade the fastest ( typically 30 days ), with PCBM blends being the most unstable, while the TiOx layers were stable for the duration of the test ( 80 days ). The rapid degradation of the blends appeared to be caused by UV-PEDOT PCBM: Thio Al induced damage to the PEDOT-PSS and PPV polymers that was mitigated by including TiOx in the device structure. The rapid degradation of the PCBM blend devices were also observed for devices kept in a dark dry nitrogen atmosphere. The significantly short shelf life ( 7 days ) of PCBM blend ( Figure 9, top ) was likely due to the chemical change in PCBM itself or a chemical reaction with PCBM. In those 7 remained days, the Isc decreased by 60 while the Voc constant. In contrast, the TiOx devices showed shelf life of over one year ( Figure 9, bottom ). The V and FF both oc TiOx Thio Au increased while I remained constant. The largest increase in sc occurred within the first 30-60 days, and eventually Voc reached 0. 8 V. This is due to the evolution of Au-polymer Fig. 9: Shelf-life of...
